

PUBLISHED DAILY AND TRI-WEEKLY BY EDGAR SNOWDEN.

MONDAY EVEN'G., JANUARY 26, 1880.

The few conservatives in the State who seem to be so intent upon having a state convention of the party held at an early date to appoint delegates to the national democratic convention should "held their herees." In this case as in many others the more haste the less speed. On all state matters the regrots will vote with the readjusters; on national questions the vast | vent it by a till which will leave West majority of them will east their ballots with the republicans. Therefore an early or late convention will have no effect upon them. With the at Yorktown, will be removed to West Peist, readjusters, however, the case is different. Put and be replaced by a surveyor's office. This a beggar on herseback and he will ride to the preiset, however, will be opposed by Mr. devil, and all that most thieves want to hang themselves is a long enough rope. By a parity and, and is said to be growing rapidly. Twelve of reasoning time is an important consideration trains of ours reach it daily, and an immense in the solution of any problem in which readjusters are factors. There are many good and true men among them-as sound conservatives es can be found in the ranks of the conservative party-who are already utterly disgusted and outreged at the shame, disgrace and positive in jury they have inflicted upon the State in the matter of the judgeships alone, and whe, even if they could stand that, will be forced to repudiate them if they suesceed in carrying out some of their more nefatious plans, if that were possible. For this one reason, if there were no others, which is not so, it will be the part of wis low to put off the State conservative convention as long as possible, for if a late day be selected it is within the range of pessibility that by such a date the reat justers will be reduced to the office holders who profess their faith and the negroes. The latter will vote fer the republican candidate for President, whoever he may be, but the former, with all their andacity, will not be brazen faced enough to vote with them for an avowed enemy of the section in which they reside. Nothing can be gained by an carly convention, but much may be lost. Therefore let the day on which it is to be held approximate as near as preclicable the time set for the meeting of the national democratic convention.

lo the course of his tostimony before the Exodus Committee, last Saturday, a North Carolina republican expressed the epision that the intelligent negro of the South has more to fear from the republicing of the South than from democrats. He explained this on the ground that the white republicars want all the offices themselves, and if the cylored men claim | candidates for the republican nomination for the a division they combine against the negro. And it is not credited. if he had tried all his life he could not have the subject. Why, in this very city, and with. in the last week, a case occurred in which the evidence of this witness was substantiated irrefragably. A negro, and we recken a competent one, was a candidate for a position in the Custom House. If he had gotten it he would have been the only negro federal officeholder here. He was on the point of getting it when the white republicins here combined sgainst him and secured it for end of their own number. And so it is throughout the entire South. The negroes constitute the whole strength of the party, but in the distribution of the offices are not even allowed the crumbs.

The subject of improving the harber of the uttored a truth more patent to all familiar with District of Columbia brings up the question of removing the navy yard to Alexandria, and that of course revives the project of reappexing Al exandria to the District. The pavy yard here size are in danger of grounding in it, and so shallow that it is impossible for them to navigate it except upon a full tide. Notwithstanding all this, however, it is doubtful if Congress would agree to move it even if Alexandria were back in the District, and by no means certain that Alexandria would agree to come back even to secure so great a boon as the location of the navy yard within her lines.

Judge Harris, who is always on the leckout for any and every thing that will benefit his State, and of course react favorably upon himself, will scon introduce a bill in Congress for an appropriation for the construction fish ways in the Potomac river, by which shad and herring and other fish that are now prevented from reaching the upper waters of that river by reason of the fails thereon will be enabled to man Catholic Church which was witnessed by overcome that difficulty.

Mr. Clarke, the architect of the Capital, contemplates making some changes in the slyle of religious views was not generally known the sca's in the House of Representatives, bec's of those within the railing. The question of re-endowing the citizens of the District of Columbia with the privilege of saffrage is now an absorbing topic of conversation among the local politicians here. A large majority of the property holders and of those who have the real interest of the emmusity at heart are utterly opposed to the projust, but these who hope for individual preferment and the buttern r class generally are in favor of it to a man.

The friends of Mr. Alexander and Mr. Baskerville states that even had Mr. Townes been nominated he would have been defeated on Saturday. Mr. Alexander is said to be acceptamencement of the day's service, stepped out in ble to all the people in Mecklenburg, and they claim that they have achieved a victory over Mr. Townes and his friends.

As soon as the election of judges is completed it is hoped that the General Assembly will devote its attention to other business. There has been very little done this session, although more than la'f of the old constitu-

tiosal limit has expired. Some of the readjusters say that a bill to substitute the McCulloch settlement has been drafted and is ready to be submitted to the caucus at any early day. The till is said to be the handiwork of Gep. Mahone, assisted probably by one or two of the leading readjust-

ers in and out of the Logislature. It is now understood that ex Auditor W. II. Taylor will be at the head of a new backing Father F. Urbar, who has been detailed to institution which is proposed to be opened on the corner of Seventh and Broad streets. GO AND SEE the IMMENSE STOCK at ISAAC EICHBERG'S. Letter from Richmond.

[Correspondence of the Alexandria Gazette.] RICHMOND, Jan. 24,-The indications are that the so called Baltimore and Cincinnati Railread will not get through Virginia. The Committee on Roads in the Senate teems to have acted over hastily in reporting this bill. For has been very cautious in dealing with railroad bills-infect, sice Mahone got such a slice from the State in the shape of a railroad, our legislators have been more careful—that is previous ligislatures. Of course no one can tell what this Logislature will do. For instance, if Mahone were to command the majority to vote

for this railroad bill the bill would be passed. There was a smile all over the hall of the House yesterday when Mr. Fatr's letter to Judge Stuart was read, in which Farr mentioned that he had seen Mahone, and Mahone "was favorable." And some of the Mahoneites winced, too, when the name of the man who runs them was read. It manifested this fact that Mahone's say settled the question of the county judges. It is understood that Mahone has promised Farr his influence; to help him to get to Congress.

The scend caucus nominee for the position of judge of Albemarle appears to be as bad as the first, or, indeed, from the disclosures made to day by Mr. Duke and others it seems that ing l'orvis himself, as Taylor is his intimate friend, The bargain had been made between them that if Purvis got the judgeship Taylor's son should be made instructor in the Miller School. It cannot be wondered that Mr. Duke made an earnest speech against this election, for the judge of Albemarle has the control of the Miller Manual Labor School and the disburscment of \$45,000 a year belonging to that fund. Perhaps the most withering sareasm on the county, were destroyed by fire on Wednesday selection of judges by the resejusters comes from Mr. Taylor, their newly elected judge of Albemaric, who, when he heard of his nomination, said that while he was not now competent Sunday school and church were read, and to fill the pices of judge, yet he meant to fit himself for it, and would, if necessary, take the

law course at the University of Virginia! Mr. Michie to day declined to swallow the caucus neminee for judge of Albamarie, Hezekish Taylor. Mr. Michie was elected to the Legislature as a republicin readjuster and to:ed with the caucus until the Albemaile judgeship came up, and then he would not accept the nomination of Purvis and Taylor. Riddly-Wm. Townes, of Meeklenburg county, from all berger also stands aloof from the caucus. Pope, of Southampton, who, until now, has reted of Cel. Townes then withdrew his rame as a with the readjusters, has iccarred their deep indenation by declaring that he will not vote for any man for judge against whom charges are brought. The speech of Hon. B. Johnson Barbour today, in seconding the comination of Judge Cichran, (l' Albemarle, was beautifully clais c and cornect. The case of Judge Cochran is not unlike that of Judge Stuart. Readjusters, conservatives, republican, white and tlack, demanded his re-el c.iou, which was a most ex cellent reason to the mongrel party that he should not be elected.

Monday may be a day of rest in legislative ireles-that is if the readjusters put up a decent man for the next position to be filled. Of c. urse it depends as to who they will nominate. if they continuo as they have begue then the conservatives will fight them at every step.

The colored brother who elected Mahone to the Senate is now beginning to see that the promise of office was rather lacking the requisite embstance. "Captured with two doorkeeperships" must be the epitaph of the colored members in the Legislature. ETRONGBOW.
